THE ETS WAY

Here at Elite Tactical Systems Group (ETS), our goal is to provide our customers with innovative products by utilizing cutting-edge design, materials, and manufacturing processes. Be it our polymer magazines or the fastest loaders the shooting world has ever seen, our dedication to our core values keeps us at the forefront of innovation and value for our customers. ETS products are reliable, affordable, come with a lifetime warranty, and are always proudly made in the USA.

The commitment to our customers doesn't end with the manufacturing process, it carries through all aspects of our company. We pride ourselves on standing out in a world where people have come to expect mediocrity in their customer service experiences. Which is why we aren't satisfied until we exceed your expectations. Rest assured, when contacting one of our team members they will be knowledgeable and completely focused on taking care of you.

The level of care we take in making our products and supporting our customers allows us to provide the lifetime warranty we are famous for. It's no small feat offering a lifetime warranty on all of our products. The level of wear and abuse these items are subjected to is remarkable. Just look around the industry and you will see how rare it is to find such a warranty. Purchase ETS products with the confidence of knowing we will always stand behind our products and always take care of you, our customer!

LIFETIME

NEW

OMEGA MAGAZINES

Our mission for the last decade has been to create the world's best magazine. Hard work, relentless testing, and invaluable customer insights have fueled our obsessive pursuit of magazine perfection. The pursuit is over—Omega has arrived!

Omega magazines are the ultimate evolution of ammunition magazines. Omega offers shooters the superior strength, function, and durability of steel, while preserving the visibility, reduced weight, and impact resistance of ETS polymer.

Our team has designed the Omega magazine with a hardened steel frame to cover all high-stress areas, including feedlips and the rib where the rounds taper from double to a single stack. This steel frame allows Omega to function like a factory mag by reducing friction, increasing stiffness, and maintaining key tolerances for feed reliability. The fusion of our legendary polymer with the steel frame, an industry-first, makes Omega superior to all other magazines.

MAGAZINES

THE ULTIMATE FUSION OF POLYMER AND STEEL

FEATURES

- Hardened steel feedlips and frame provide seamless ammunition feeding
- Factory reliability
- Translucent polymer makes it easy to identify the round type and count
- Patent pending Omega Joint™ and frame wraps 360 degrees for maximum strength and 100% drop-free reliability
- Military-grade Teflon-infused coating meets all military standards for corrosion and friction resistance
- Extreme impact resistance with our patent pending fusion of polymer and hardened steel
- Ergonomic floorplate design allows for an easy grip to pull from pouches
- Weighs 50% less than an all-steel magazine
- Superior heat, cold, UV, and chemical resistance

HARDENED STEEL FEEDLIPS AND FRAME

Our team has designed the Omega magazine with a hardened steel frame to cover all high-stress areas, including feedlips and the rib where the rounds taper from double to a single stack. This steel frame allows Omega to function like a factory mag by reducing friction, increasing stiffness, and maintaining key tolerances for feed reliability. The fusion of our legendary polymer with the steel frame, an industry-first, makes Omega superior to all other magazines.

NEW CARBON SMOKE SERIES
MAGAZINES

In a time when costs are rising, ETS is committed to producing superior products at affordable prices. This year our newly built manufacturing facility gives us more control over quality and efficiency during the manufacturing process, paving the way for our new line of magazines, the Carbon Smoke Series. Built better than ever and priced so you can get the most out of your money.

These dark smoke-colored magazines are impact, chemical, and UV resistant, and the translucent body allows you to see the remaining round count. Utilizing our proprietary blend of polymers, these magazines won't crack or break when dropped and won't become brittle over time when exposed to harsh environments. The Carbon Smoke Series magazines are robust, reliable, and can be stored fully loaded without the concern of damaging the feedlips.

ETS prides itself on being the leading manufacturer of the world's toughest polymer magazines. Our no-compromise commitment to our customers drives every decision, from material selection to customer service. All ETS products are made in the USA and come with a lifetime warranty. Whether at the range or for self-defense, ETS is committed to providing magazines that feed smoothly and consistently and are always ready when you need them.

ETS CARBON SMOKE AR15 MAGAZINES

Our magazines work seamlessly with .223, 5.56mm, and .300 Blackout rounds and have a 30-round capacity. The no-tilt follower ensures reliable bolt open on the last round, while the clip-on dust cover keeps dirt and debris out during storage.

Our specially designed floor plate allows for fast and easy disassembly for maintenance without tools. The ergonomically designed floorplate makes it easy to grab from magazine pouches, and the ribbed design delivers a superior grip.

FEATURES

- Improved feed lip geometry allows better compatibility with more receivers
- Retention tab is now larger to increase magazine retention
- Works with .223, 5.56mm and .300 Blackout rounds
- 30-round capacity
- No-tilt follower with reliable bolt open on last round
- Clip on dust cover to keep dirt and debris out during storage
- Fast and easy disassembly for maintenance without tools via our specially designed floor plate
- Ergonomically designed floorplate makes it easy to grab from magazine pouches
- Ribbed design delivers superior grip

ETS CARBON SMOKE MAGAZINES FOR AR15

SMK-AR15-30CG2	GEN 2 AR15 MAGAZINE, 30RD, COUPLED, CARBON SMOKE	30RD	\$16.50

INTEGRATION MAKES PERFECTION

Our slim coupler design, which is only 1/8" wider than a non-coupled magazine, can be coupled and uncoupled in seconds without tools. The coupler is completely integrated into the magazine so there are no external pieces needed. This system allows the user to couple two or more magazines together at one time.

CLEAR POLYMER MAGAZINES

Our magazines are made from the highest quality proprietary blend of polymers. This provides superior impact resistance, ensuring they won't crack or break when dropped. With superior temperature tolerances, our magazines won't become brittle over time, even when exposed to harsh environments or chemicals. Our durable magazines are robust, reliable, and can be stored fully loaded without the concern of damaging the feedlips.

- Superior impact resistance—won't crack or break when dropped
- Resistant to harsh chemicals
- Superior heat, cold and UV resistance—won't become brittle over time even when exposed to harsh environments or extreme cold
- Translucent body—allowing you to see your ammo count and type (CLEAR AND CARBON SMOKE MAGS ONLY)
- Creep resistant—the feedlips and body won't spread when being stored long term fully loaded
- Built-in coupler allows multiple mags to be connected together in seconds without tools or extra parts (AR only)

ETS CLEAR POLYMER AR15 MAGAZINES

Evolving polymer magazines is what we do best. We've upgraded our durable AR magazines by improving the feed lip geometry for better compatibility with even more receivers and made the retention tab larger to increase magazine retention.

FEATURES

- Improved feed lip geometry allows better compatibility with more receivers
- Retention tab is now larger to increase magazine retention
- Works with .223, 5.56mm and .300 Blackout rounds
- 30-round capacity
- No-tilt follower with reliable bolt open on last round
- Clip on dust cover to keep dirt and debris out during storage
- Fast and easy disassembly for maintenance without tools via our specially designed floor plate
- Ergonomically designed floorplate makes it easy to grab from magazine pouches
- Ribbed design delivers superior grip

INTEGRATION MAKES PERFECTION

Our slim coupler design, which is only 1/8" wider than a non-coupled magazine, can be coupled and uncoupled in seconds without tools. The coupler is completely integrated into the magazine so there are no external pieces needed. This system allows the user to couple two or more magazines together at one time.

ETS CLEAR POLYMER MAGAZINES FOR AR15

ETS CLEAR MAGS FOR AR15			
MODEL	FITS	ROUND COUNT	PRICE
AR15-30G2	GEN 2 AR15 MAGAZINE NON-COUPLED	30RD	\$19.00
AR15-30CG2	GEN 2 AR15 MAGAZINE WITH COUPLER	30RD	\$21.00
AR15-30TRG2	GEN 2 AR15 MAGAZINE, NON-COUPLED W/ TRITIUM FOLLOWER	30RD	\$36.00

THE WORLD'S FASTEST SPEEDLOADERS

ETS UNIVERSAL PISTOL AND RIFLE MAGAZINE SPEEDLOADERS

- **TIME SAVING—WORLD'S FASTEST LOADERS!**
Loads magazine in seconds, one plunge and you're done.
- **PAINLESS—STOPS MAGTHUMB™**
No more tedious repetition. Load 10 rounds at a time, without having to touch the ammo! Even people suffering from Arthritis can use our loader.
- **EASY-TO-USE—A LOADER FOR EVERYONE**
Regardless of your age, your strength or shooting skill level, this loader is for you! Whether it's your first time shooting or you're a seasoned pro, our loader will improve your shooting experience forever.
- **DOES IT WORK WITH MY MAG? THE ANSWER IS YES!**
Our universal speedloaders work with almost all pistol and rifle magazines available on the market today and works flawlessly with MP5 magazines.
- **SAFE FOR YOUR MAGAZINES—NO DAMAGE TO FEEDLIPS**
Our unique internal geometry ensures that the rounds are loaded properly without damaging the feedlips of your magazine.
- **LIFETIME WARRANTY—SATISFACTION GUARANTEED**
Our ETS Speedloaders are backed with a lifetime warranty, so you can count on this loader for the rest of your life!
